

A Machine Barista that You Can Trust

JL32A Commercial Fresh Milk Coffee Machine

HIGHLIGHTS

- Special Steel Flat Burrs
- Professional Brewer
- Quality Milk Foam
- Dual Boilers

10.1" Touch Screen

Fresh Milk Coffee

Separate Hot Water

Instant Canisters

PRODUCT FEATURES

Grinding System

- 64mm Special steel flat burrs
- Lifetime: 125,000 times or 1000kg beans
- Uniform ground particles

Brewing System

- Jetinno patented brewers
- 9 bar 92°C extraction
- Pre-infusion and anti-gravity extraction

Milk Frothing

- Makes textured and smooth milk foam
- Separate pump and boiler for steam
- Milk system auto rinsing

Daily Output: 200 cups

Beverages & Taste

- Fresh Ground, fresh milk flavor coffee
- Built with instant canisters, makes a variety of beverages
- hourly output 100+ cups

Operation & Telemetry

- 10.1 touch panel and intuitive menu
- Android OS, support multiple languages
- SaaS remote management platform (optional)

Use & Maintenance

- Smart detection: bean, water, drip tray, waste cakes
- Smart auto rinsing, multiple cleaning options
- 4L fresh milk fridge (optional)

MACHINE PARAMETERS

Configuration	JL32A
Dimension/Net Weight	350(W)*620(H)*560(D)mm, 30kg
Voltage/Frequency/Rated Power	220-240V 50, 60Hz, 2900W
Operation Interface	10.1" touch screen
Bean Hopper	1x 1500g
Canisters	1x 3L + 1x 2L
Grinder	1x Jetinno PGH64
Espresso Brewer	P20
Mixer	1 pcs
Hot Water Boiler	700mL, 2700W
Steam Boiler	Thermoblock, 1400W
Water Pump Type	2x piston pump
Separate Hot Water	Yes
Milk Foam System/Fresh Milk Fridge	Yes Optional, 4L
Spout Height	160mm (with cup holder)
Waste Bin	1 x 40 waste cakes (8g), direct slagging off (optional)
Drip Tray	0.6L, direct drainage (optional)
Water Supply	Built-in 4L water tank/mains water/barrel water
Internet/Payment/IOT	Wifi , 4G (optional)/Optional, MDB Protocol Payment / QR Code Payment / Optional
