

Seamless Integration · Smart Dispensing

JA10 Automatic Cup Dispenser

HIGHLIGHTS

- Universal Compatibility
- Dual-Cup Flexibility
- Transparent Cup Detection
- High-Capacity Storage

RS485 Communication

Dual Cup Dispensers

Up to 310 cups

Illuminated Pickup Zone

PRODUCT FEATURES

Universal Host Integration

RS485 communication interface ensures seamless synchronization with most coffee machines.

Dual-Cup Flexibility

Two independent dispensers for cups of different dimensions and materials—paper cups for hot drinks and transparent plastic cups for cold drinks.

High-Capacity Storage

Dual 5-column dispensers store up to 155 paper cups and 112 plastic cups, significantly reducing refill frequency.

Smart Cup Detection

Reflective sensor detects all cup types including clear plastic cups with alerts of low stock and jams.

Effortless Operation

Front-access tray with illuminated workspace, slide-out refill inlet with lockable rail-guided door.

MDB Payment Ready

Available for customized card readers with a pre-drilled mounting hole.

MACHINE PARAMETERS

Configuration	IA10A-2C90	IA10A-2C80	IA10A-C80-C90
Dimension	330(W) x 740(H) x 670(D)mm
